

Work Experience

- April, 2025 - Present **Microsoft - Data Scientist.**
Primarily focused on improving Excel and Copilot functionality by incorporating LLM-based smart features, in collaboration with the Office Suite team.
- July, 2024 - Jan, 2025 **Triomics - Research Scientist.**
Primarily focused on developing LLMs over both structured and unstructured data (both RAG and non-RAG based). Alongside, I also spend around 50% of my time on deploying these models in the Triomics' product pipeline. This includes my involvement as a co-lead on a pilot project for a Fortune 10 client.
- Nov, 2023 - March 2024 **ScopeFour Capital LLC - Investment Analyst Intern,** .
Conducted comprehensive equity investment research using diverse sources and developed a customized LLM tailored towards financial data analytics to substantially expedite the research analysis.
- June, 2021 - Sep 2022 **Google Research - Pre-Doctoral Researcher.**
Focused on developing ML algorithms for Google Ads, enhancing ad targeting and revenue generation for over 10 million SMBs. Led cross-functional collaboration to deploy sophisticated deep learning models across YouTube and Search platforms. Published multiple papers in top-tier AI conferences.
- June, 2020 - August, 2020 **Learngram AI - Machine Learning Intern.**
Implemented advanced deep learning AI algorithms in beta versions of core products. Presented machine learning-based product concepts to investors and contributed to multi-year product release strategies across key verticals.
